## **Sole Trader Renewable Energy**

- The Clean Energy Company That Sees The Future Through Your Children's Eyes
- The Action Company

## Services

- **Project Development**
- **Management**
- **Engineering**
- **Construction**
- **Operations**
- **Maintenance**

**SOLE-TRADER  
RENEWABLE ENERGY**

We Help You Think Different

# Leadership Team

- CEO – Kevin Butler  
Naval Officer, PMP, PE,  
NFPA Engineer,
  - Design Director-  
Stone and Webster
  - Senior Manager-
    - Exelon- Senior  
Nuclear Project  
Manager
    - Dominion  
Energy-  
Renewables  
PM

# Leadership

- Operations Vice-President Neal McCraw 44-year energy market veteran, significant leadership, and management experience. His experience covers the life cycle of the competitive commercial marketplace including; commercial startup/operations, and Department of Energy (DOE) program management.

# Leadership

- Vice-President  
Marketing and Sales  
A seasoned veteran of  
Utility Grade Energy  
Generation. Astutely  
aware of current and  
trending future market  
forces and how they  
impact the Energy  
Generation World.

## Leadership Team

- Construction President- Mike Portillo
  - Construction Manager - Shaw
- Senior Construction Manager- Dominion
  - 30 + year construction leadership background

# Leadership

- Vice-President of Projects, 30+ years of Senior Utility Leadership in Finance and Project Management.
- Proven leader a skilled developer of dynamic Project Management teams.

# Leadership Team

---

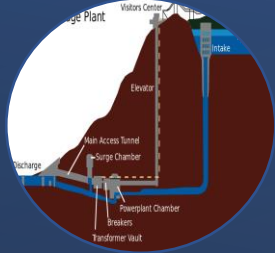

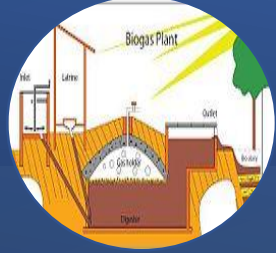

- Engineering Vice-President  
40+ years experience  
beginning as a NASA shuttle  
engineer, before moving to  
Utility work. His Utility  
background covers the  
complete generation life cycle.

# Overview

- Small Business Association Certified Service-Connected Minority Veteran owned company.
- We Develop, Build, and Deliver on-time projects.
- We see the future through your children's eyes
- We provide practical solutions using advanced renewable technology
- Better Business Bureau Certified

**We have an expanding  
Portfolio of fuel options.  
The future is now, we  
help you grasp the  
moment and build for the  
future, build for your  
children**

# Our Core:

---

- We bring the world to you with practical applications of cutting-edge technology to create clean energy where you are. We work to saving the environment and the future.
- Our word is our bond, we deliver what we promise!
- We're The Clean Energy Company that sees the Future Thru Your Children's Eyes!
- **Our relationship with you is our success!!!**

**SOLE-TRADER**  
**RENEWABLE ENERGY**

We Help You Think

**Evolving Technology**

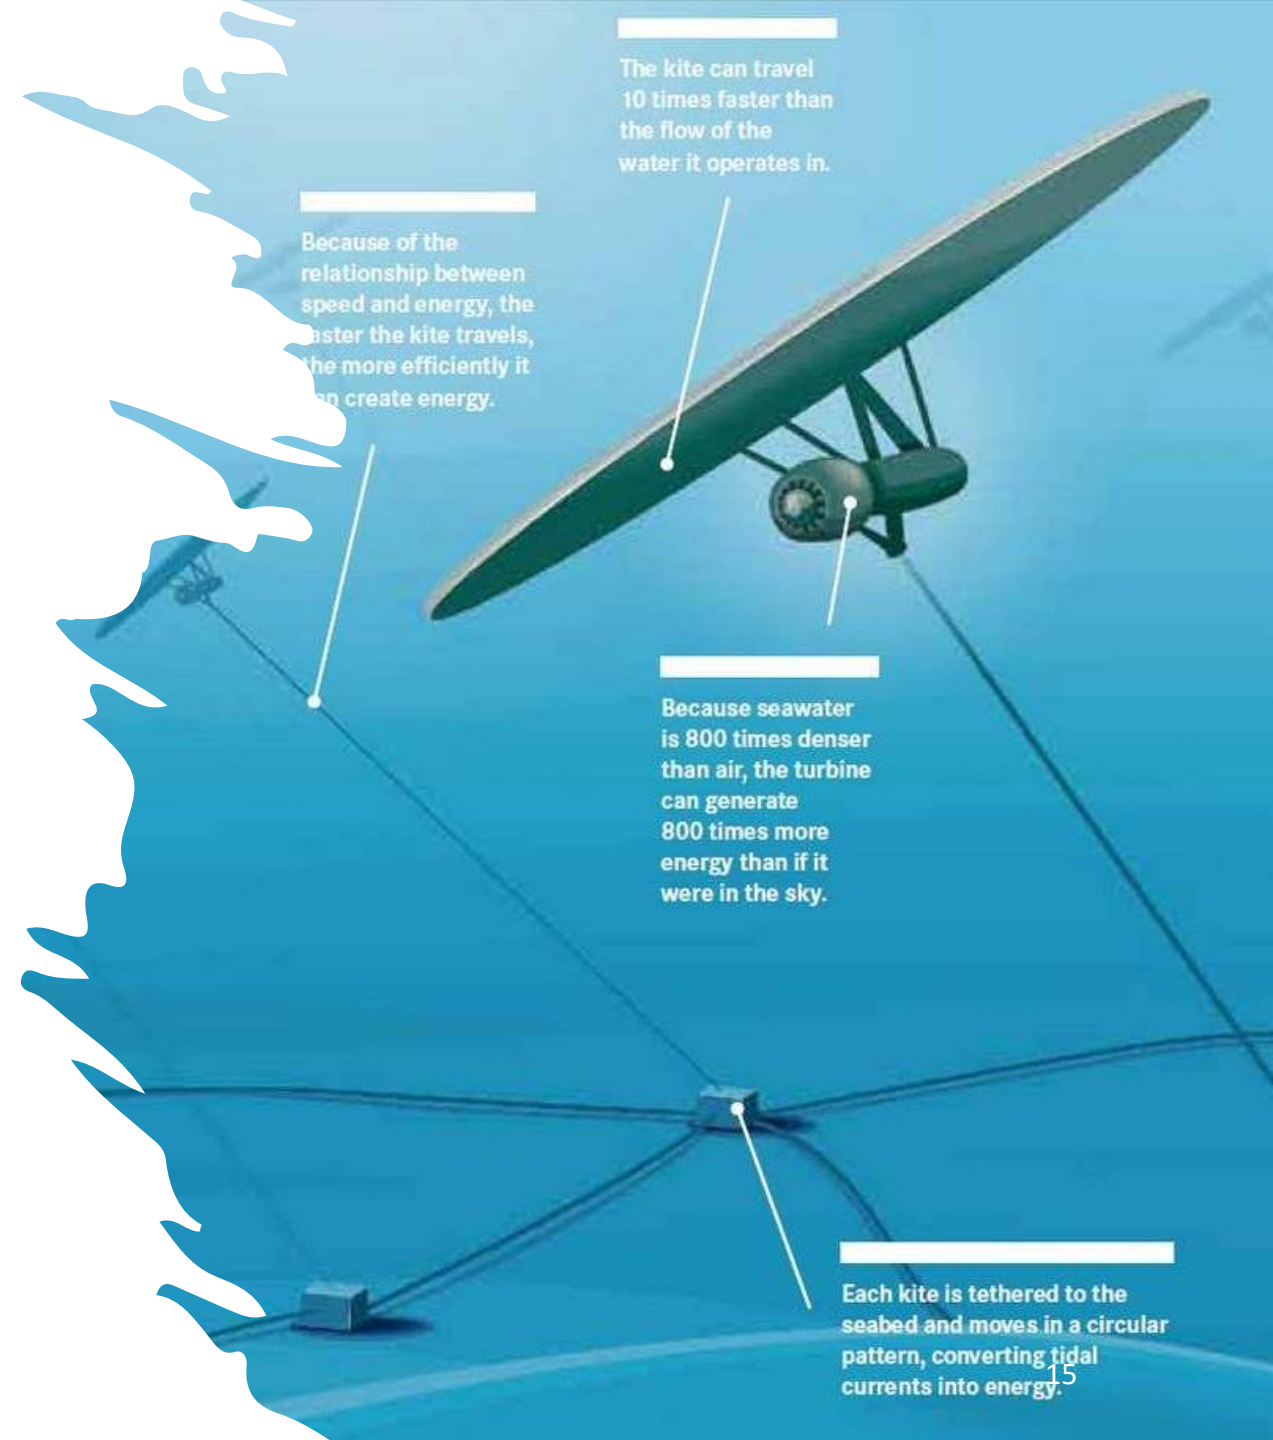

## Bladeless Wind Turbines

Large vertical turbine with a single blade.

Designed to be efficient in low wind conditions.

It creates clean energy while eliminating the bird threat posed by traditional wind turbines

# Underwater Kites for deployment close to shore, lakes, and large ponds

The kite can travel 10 times faster than the flow of the water it operates in.

Because of the relationship between speed and energy, the faster the kite travels, the more efficiently it can create energy.

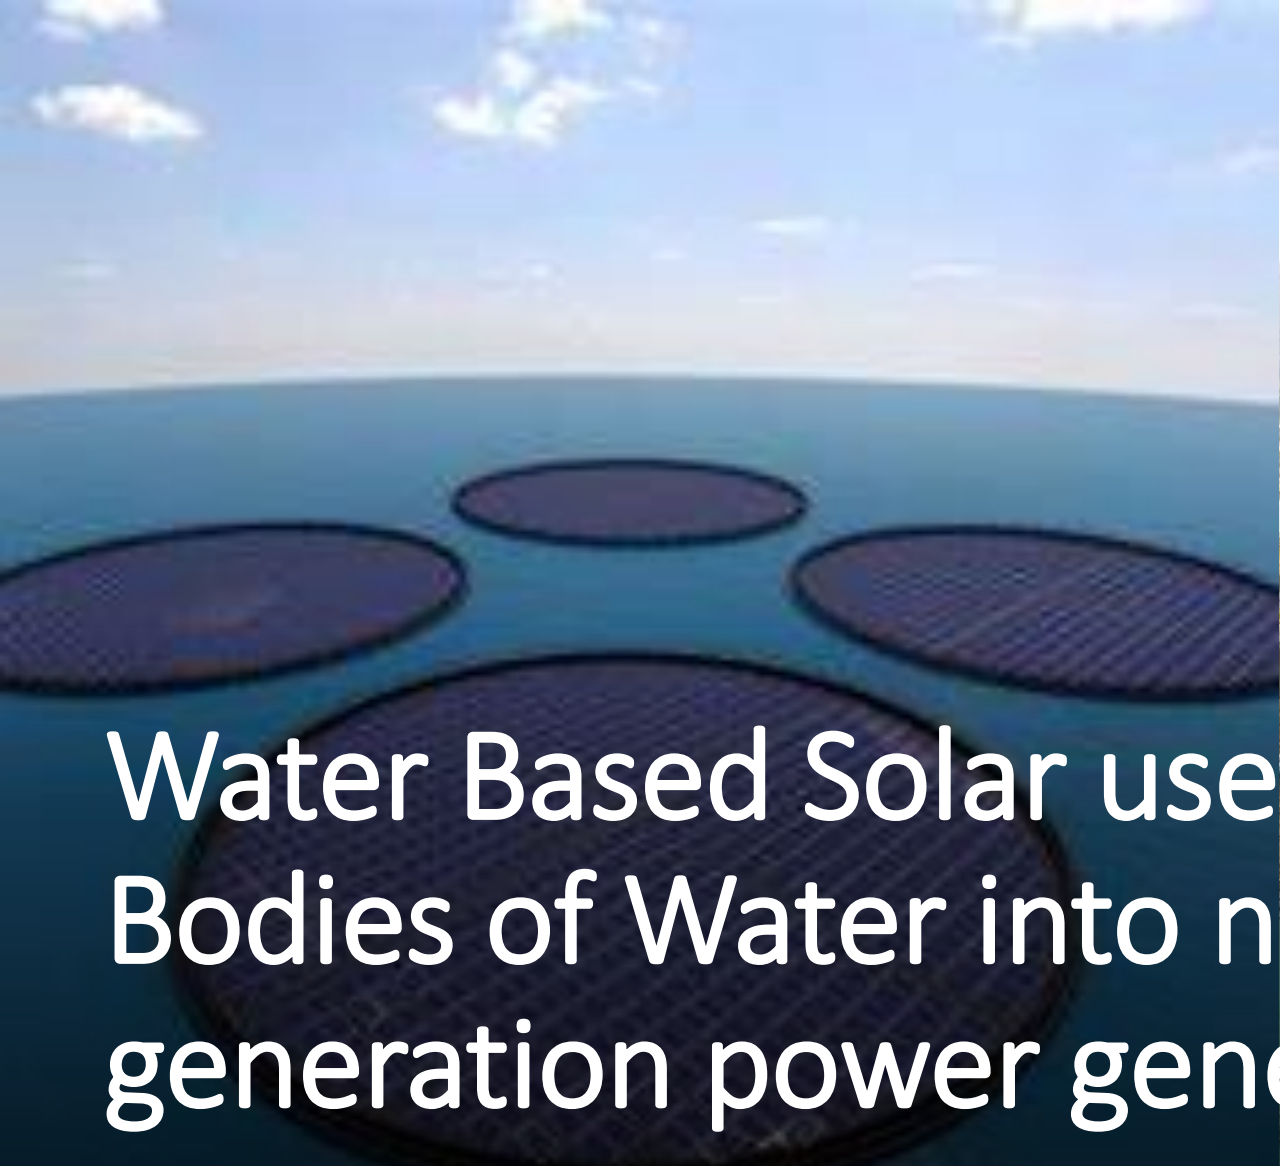

Because seawater is 800 times denser than air, the turbine can generate 800 times more energy than if it were in the sky.

Each kite is tethered to the seabed and moves in a circular pattern, converting tidal currents into energy.

Solar Glass Designed to convert windowed structures into Energy Producers

Water Based Solar used to convert  
Bodies of Water into next  
generation power generators

Siphon Turbines  
Use the  
downstream water  
from Hydro plants  
to generate  
additional power

HERMES – Hydro Energy  
Reclamation Management System  
- Using Untapped Kinetic Energy  
generated by Power Plants.

---

A large, rectangular, metallic industrial component is being lifted by a crane. The component is supported by a complex steel structure with four legs. A yellow crane is visible on the right side of the frame. The background shows a clear blue sky, some greenery, and a building with a green roof. The text "HERMES – The future of Super-Charging Traditional Power Plants" is overlaid in white on the image.

# HERMES – The future of Super-Charging Traditional Power Plants

SIPS (Solar Independent Power Stations)  
Mobile Modular Energy Generation  
We have several versions including  
Hydroponics, Offices, and Storage/ Supply

## Solar Boiler

Concentrated Mirrors that Super-Heat molten salt used to convert water in solar boiler for around the clock Energy Generation

An aerial view of a roof covered in solar roof tiles. The tiles are dark grey with a grid of white lines. A circular inset on the right side shows a close-up of a blue solar tile with a grid of white lines. A white circular graphic with a grid pattern is overlaid on the left side of the image.

## Solar Roof Tile Convert Roofs into Energy Producers

# Life Cycle Management

- Strategic Planning
- Project Development.
- Project Management,
- Construction,  
Commissioning/ Startup
- Cyber-Security
  - NERC-CIP consulting
- Operations, and  
Maintenance
- Decommissioning

# Company Registrations

- Sole Trader is registered with the following agencies.
  - SAM – Government Acquisition system
  - Society of Military Engineers (SAME), - This group includes the Army Corps of Engineers.
  - MLGW -Memphis Light Gas & Water – One of the nations largest Municipal Utilities
  - TVA – Tennessee Valley Authority- One of nations largest Utilities.
  - Dominion Energy- East Coast Utility
  - Southern Company- Large East Coast Utility
  - Santee Cooper – Large Co-Op in South Carolina.
  - Exelon – Large Midwestern Utility.
  - City of Memphis.
  - CPS- San Antonio – Large Co-Op with generation capability.
  - ACORE- American council of renewable energy
  - NPPD- Nebraska Public Power District
  - Idaho Power
  - DTE – Detroit Edison
  - SBA- Service Connected Veteran Owned Business
  - BBB- Better Business Bureau

# Conclusion

---

- **Clean Energy is the future!**
- ***We're the Clean Energy Company that see's the Future Thru Your Children's Eyes.***
- ***We save the environment for our children***
